Real-time Data Reporting

👤 PROFESSIONAL SUMMARY

MERN stack developer with 2 years of experience in building high-performance web applications, integrating APIs, and implementing real-time data reporting. Skilled in delivering client-focused solutions, automating workflows, and creating platforms that boost sales and user engagement. Experienced in developing and maintaining an API Orchestrator platform to efficiently manage and integrate multiple service endpoints, ensuring seamless communication between systems and improved operational efficiency.

🧠 SOFT SKILLS

Team Collaboration | Problem-Solving | Adaptability
Time Management | Analytical Thinking

💼 PROFESSIONAL EXPERIENCE

Homepreneur Solutions Private Limited, Bengaluru
Application specialist | July 2023 - July 2025

- Developed and maintained an API Orchestrator platform to efficiently manage and integrate multiple service endpoints, enabling seamless communication between services and reducing integration complexity.

- Designed and integrated chatbots to automate customer interactions and drive sales for client businesses.

- Developed a bulk WhatsApp messaging platform for sending promotional and transactional messages to 1K–5K recipients simultaneously, primarily used for marketing and product sales.

- Built interactive client dashboards to visualize sales trends, customer behavior, and market performance for data-driven decision-making.
